SUMMARY

Detail-oriented and results-driven professional with a strong foundation in cybersecurity and full-stack development. Eager to leverage technical expertise and problem-solving abilities in a challenging role, while contributing to the growth of the organization.

EDUCATION

Master of Science in Cyber Security   **October 2022- July 2024**
Aditya Degree & PG college

Bachelor of Science in Forensic sciences   **July 2019 - June 2022**
R.B.V.R.R women's college
- Forensic sciences with computers.

SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript, React.js
- **Backend Development:** Node.js, Express.js, RESTful APIs
- **Database Management:** MySQL, MongoDB

PROJECT

- **Title: Amazon Clone**
- **source code :** https://github.com/sowmya-pilli/Amazon
- Created a static replica of Amazon's homepage using HTML and CSS, featuring a responsive design with a navigation bar, product grid, and footer. This project demonstrates strong skills in frontend design and responsive web development.
- **Title : Whether API**
- **Source Code :** https://github.com/sowmya-pilli/whether_app
- This project enhances webpage navigation by integrating smooth scrolling for anchor links and a mobile-friendly feature that unchecks a hidden checkbox when any navigation link is clicked. Using jQuery, it creates a fluid user experience with automatic URL hash updates for consistent navigation.
- **Tittle : E-commerce fashion website**
- **Source Code :** https://github.com/sowmya-pilli/E-Commerce
- This project is a responsive E-commerce fashion website showcasing products such as t-shirts, bags, and accessories. It features product listings, detailed descriptions, color options, and a "Buy Now" feature. The site is optimized for mobile and includes a contact form and embedded Google map for business locations GitHub
